# TERRITORY WEED MANAGEMENT PTY LTD

## Controlling weeds in the Northern Territory

The Weed Management Act 2001 imposes weed management obligations on landholders in the Northern Territory in efforts to control the introduction, extent and spread of weeds in the NT and to apply appropriate controls and treatments as required.

Territory Weed Management Pty Ltd have many years of experience in weed management around the Northern Territory and can advise land owners of weeds management options and apply treatment should it be required. Call Murray on 0427 970 847 for any weed management queries.

The Department of Land Resource Management also has information available. Visit <https://landresources.nt.gov.au/> for more details.

*When space, time and context matter.*

## MARMEL ENTERPRISES

### CASE STUDY No. 2 - TERRITORY WEED MANAGEMENT

#### THE BRIEF:

Territory Weed Management approached Marmel Enterprises to produce maps and other digital data products for their weed management contracts.

Marmel Enterprises extracted data from the field devices and overlaid the data onto other digital data and aerial imagery sources to generate mapping products.

Other products included spread sheets of waypoint locations and KML files for Google Earth visualizations.
